NEWS RELEASE

May 7, 1969

Michael Attas, 11th grade student at Lower Canada College, has won the first prize of \$100 in the English-language sector of the Quebec Mathematics Competition, the provincial preliminary to the Canadian Mathematics Olympiad. Nancy Chow, 12th grade student at the High School of Montreal, won the \$50 second prize. Peter Hughes, 11th grade student at MacDonald High School, won the \$50 third prize.

In the French-language section, the first prize was won by Michel Vadnais of Collège Marie de la Présentation at Drummondville. Second prize was won by Jean-Paul Brassard and third prize by Daniel Demers. Both are first-year students at the University of Montreal.

All six students also won \$250 scholarships donated by the Sun Life Insurance Company.

The Quebec competition and the Olympiad are sponsored by the Canadian Mathematical Congress in collaboration with the Canadian Society of Actuaries and the Canadian Association of Mathematics Teachers.

In all about 1,700 Quebec students from 120 schools entered the competition. Fifty students from the province will take part in the Olympiad, which will be held on Wednesday, May 28.
